About Me

Hi, my name is Nuril Ihsan. I am a bachelor of computer science majoring in informatics engineering who studied at the Indonesian College of Technology Tanjung Pinang. I have expertise in the world of Web Development, UI/UX Design, and Web Design by using tools such as figma to create user interface (UI) designs, user experience (UX), and interactive prototypes. I also have experience as a software developer through practical work / internship at Madrasah Aliyah Negeri Tanjung Pinang school provided by the campus and work in teams to provide solutions to the problems being faced.

Education
